Undergrad student NIT Raipur || Web Developer (Full stack ) || stock market  
Raipur

## Summary

A business enthusiast with entrepreneurial mind set, who holds the ground in both technical and non-technical aspect of a business. I am deeply into analysing the stock market and also, is proficient in technical skills like web development(Django, Asp.Net .Net Core, WCF, Mysql, Bootstrap, Javascript ES6+) and app development(native app by Xamarin forms). I have worked in various group and individual project which gave me exposure to both technical and non-technical skills, currently I am working on a venture called H\_Net and is seeking funding for above venture
